Shade Canopy System

Since 1948

Quality, beauty and durability.....

Transform a plain-Jane existing deck into a lovely, shaded outdoor oasis. Create a private retreat for shade, entertaining, and The structure can be attached to your home or erected as a free-standing unit. Custom designed and custom fit to complement your home's architecture, Alumawood will not rust, warp, crack or rot. It's virtually maintenance free and built to provide years of long-lasting beauty.

The fully engineered Alumawood Shade Canopy System is effective in any climate. Rails can be spaced closer together or farther apart, depending on the amount of shade you want. Each component of the structure is engineered to assemble with ease. You'll enjoy the aesthetic appeal of a natural wood texture, plus the sophistication and charm that lattice adds to your home's exterior.

It's not wood! It's Alumawood!!

Alumawood products are tough and durable and backed by one of the strongest paint warranties in the business. From any angle, your shade structure reflects our commitment to high-quality craftsmanship.
